

Legimus User Agreement, MTM's digital library

Legimus is the library of the Swedish Agency for Accessible Media, MTM. Here you can download talking books, borrow Braille books and more. You can find information about what MTM has to offer and share book tips.

- The books are protected by the Act on Copyright in Literary and Artistic Works and may only be used by people who, due to an impairment, find it difficult to read printed text.
- When you download the talking book or place it in Bokhyllan, it is considered a loan. The loan period is 6 months. The book is returned by deleting the files.
- The login details and the books are intended for your personal use and may not be disclosed to others.

What happens if I violate the agreement?

- If you violate the agreement, you may lose the right to use the service.
- Unlawful dissemination of talking books is a violation of the Act on Copyright in Literary and Artistic Works and can lead to prosecution. When the talking books are downloaded, they are labelled with information on who borrowed the talking book. In the event of unlawful dissemination, MTM can trace who borrowed the talking book.
